

BEFORE

AFTER

Clinical History:

Dr. Jacob Lee is a 38 year old physician with diffuse thinning across the frontal forelock area, central bridge, and anterior crown. He desired no linear scar in the donor area.

Surgery:

ARTAS® Robotic Hair Transplant procedure with platelet-rich plasma with ACell (PRP with ACell) performed on August 15, 2014 by Dr. Ken Anderson, M.D. Patient has had one procedure of 1779 grafts.

Results:

Dr. Lee is very satisfied with his results at 15 months. "AFTER" pictures taken on November 13, 2015. He is going to continue on LLLT preventive therapy to maintain his existing hair.
