## Restoring confidence Let us show you how

December 2018

### Operation

Celebrating eleven years in operation, MyWHTC is at its best level of operation. With Dr. Patrick Mwamba as medical director, the clinic is dedicated to its pursuit of helping hair loss sufferers around the globe.

Located in capital of Europe, MyWHTC clinic operates in a private state-of-the-art medical facility and produces consistently outstanding patient results offering both non-surgical and surgical remedies for patients of all backgrounds.

### Research

MyWHTC has taken time to identify and reasearch the data and current hair restoration options. In order to gain patients' trust, the clinic's quality assurance demands the highest yield of hair restoration results.

The clinic is led by the training and experience of the world leaders in medical hair restoration and surgical hair restoration methods.

### Contribution

By attending yearly scientific meetings and presenting medical-based knowledge from clinical experience, Dr. Patrick Mwamba and team account for many more positive and aesthetically pleasing hair transplant results. As medical director of My World Hair Transplant Center in Belgium, Dr. Patrick Mwamba is the reputable physician of Belgium.

The clinical staff provides the training, knowledge, and expertise in clinical procedure to develop repore in patients among team.
